---

Dear Colleagues,

As a follow up to the [Moveable Equipment Purchases](#) email, departments can now use the new capital natural accounts. While these accounts are now available and departments are encouraged to use them, their use is not required until July 1, 2020.

In addition, the budget office has activated these accounts in the Enterprise Planning and Budgeting Cloud Service (EPBCS). Units will need to use the new accounts as they develop their FY21 budgets.

In February, we will host a series of webinars further explaining the fixed assets project. The schedule and registration details will follow under separate cover.

For more information about the Fixed Asset project, visit the [Rutgers University Accounting](#) website. If you have questions, please send an email to [capitalassets@finance.rutgers.edu](mailto:capitalassets@finance.rutgers.edu)

Regards,

Ernie DiSandro, Interim University Controller  
University Controller's Office

David B. Moore, Chief Budget Officer and AVP  
University Budget Office
